

Admiral Percy is a good-looking son of Derby winner, Sir Percy. This two-year-old chesnut colt is out of the precocious two-year-old winner, Oceans Apart, who hails from an excellent family, full of winners. This colt has been brought along slowly by trainer Julie Camacho and the hope is that he might be ready to run towards the end of the year, all being well. However, given his size and scope, it is hoped that Admiral Percy will make up into a promising three-year-old in 2020.

The share price is £43. There will be nothing extra to pay, no matter what costs are incurred during the syndicate period. The capital cost for Admiral Percy is £15,000, which works out as £7.50 per share. Our current management fee is set at £13.86 per share. The all-inclusive racing/training cost is set at £14.00 per share. The cost for mortality insurance is £0.22 per share. The Racehorse Rehabilitation contribution is £0.25 per share. The VAT is £7.17 per share.
