

Moabit has been a grand servant to his owners, winning nine times since joining Owners Group from France in 2015. He has become a terrific dual purpose horse, having won four on the bounce over hurdles in 2016, before switching to the Flat the following summer and winning twice. The second of those came at Salisbury in October 2017 and, following two more wins over hurdles in early 2018, he confirmed his love for Salisbury and soft ground when winning on his return to the track in April. He has since gone on a summer break with the ground so quick everywhere, but will be brought back for an autumn campaign and there should be plenty more to look forward to with him.
