

Rock Steady has been a very consistent horse for Owners Group, landing three races on the Flat and being placed another eight times. The son of Intikhab achieved a peak BHA rating of 99 on the Flat when trained by Roger Charlton and is now under the care of top Jumps trainer Alan King. Rock Steady has shown promise in two very competitive races over hurdles so far and Alan King has been delighted with how the five-year-old has taken to jumping. The plan at the moment is to run Rock Steady in novice hurdles and as he is reasonably versatile in terms of ground conditions, he will hopefully have plenty of opportunities this current Jumps season. Alan King is an excellent dual-purpose trainer and so there is always the option of going back on the Flat with Rock Steady at some point as well.
