

The colt resides at Star Cottage in Malton, North Yorkshire with Julie Camacho. He is a good-looking individual who has good conformation and, in terms of looks, is very much like his mother Oceans Apart, who won twice during her career and was officially rated 91 on the Flat. She is yet to produce a winner in the breeding shed and has recently been retired due to fertility issues, but we are hopeful that this Sir Percy colt will be her best progeny yet. He is by Sir Percy, who was an extraordinarily consistent racehorse and won the Group 1 Dewhurst Stakes as a juvenile before finishing runner-up to George Washington in the 2,000 Guineas and landing the Derby at Epsom. With an exceptional Timeform rating of 129, Sir Percy proved to be tough and sound and he has enjoyed a great start to his career at stud. Sir Percy is renowned for producing winners and his offspring usually do well at two before progressing well.
